SKILLS

JavaScript, React, Redux, Ruby, Rails, HTML, CSS, SQL, PostgreSQL, MongoDB, Express, Node.js, Tone.js

PROJECTS

MAKEABLES (Rails, React, Redux, JavaScript, PostgreSQL, HTML, CSS)

[live](#) | [github](#)

Inspired by Instructables, makeables is an online community for makers, builders and DIY's and their projects.

- Integrated Rails ActiveStorage with AWS S3 to allow users to upload images.
- Implemented an image preview feature by querying ActiveStorage prior to image upload.
- Styled a pixel perfect clone of the original Instructables web application using HTML and CSS.

THOUGHT BOARD (MongoDB, Express, Node.js, React, HTML, CSS)

[live](#) | [github](#)

Thought Board is a web application where users can visually organize their thoughts and create connections between them.

- Collaborated with colleagues to design original UI using the MERN stack including virtual bulletin boards and movable notes.
- Integrated multer and AWS S3 to allow users to upload images.
- Integrated AWS S3 and MongoDB for image retrieval and display.

GROOVE MACHINE (JavaScript, Tone.js, HTML, CSS)

[live](#) | [github](#)

Groove Machine is a 32 step sequencer where users can create and manipulate original rhythm and melody loops.

- Designed original UI using HTML5, CSS and JavaScript including sliding tempo adjustment and custom checkboxes that react to mouse hovers.
- Integrated Tone.js to generate custom sound samples that users can apply at their discretion.
- Utilized complex DOM selection to create a 32 step sequencer allowing for a myriad of sound samples to be synthesized and played simultaneously.

EXPERIENCE

Owner Operator

Let's Fix That! Handyman and Home Repair Services

Sept 2016 - Dec. 2019

- Operated a successful home repair business in California's San Francisco Bay Area.
- Developed sustainable relationships with clients resulting in increased client retention and new client referrals.
- Developed instructional lessons for customers interested in learning how to manage their own home maintenance.
- Maintained complex schedules that balanced multiple build components, deliverables and other repair crews.

Editor

UC Agriculture and Natural Resources dept. of Integrated Pest Management (IPM)

Feb 2015 - July 2015

- Fact checked Pest Management Guidelines (PMGs) reviewing best practice recommendations provided by academic staff of the UC Statewide IPM Program.
- Reviewed and edited PMGs focusing on pesticide and herbicide dilution calculations for crop application.
- Provided detailed oriented research and data analysis that lead to the publication of 22 PMGs in 5 months.

Assistant to the Associate Vice President

UC Agriculture and Natural Resources

Mar 2014 - Dec 2014

- Developed positive client and visitor rapport by providing excellent customer service.
- Managed daily operations for UC ANRs staff and guests including meeting preparation, scheduling, and receiving visitors.
- Provided assistance on numerous departmental projects while maintaining daily operations.

EDUCATION

Full Stack Development Certificate - App Academy | Spring 2020

BA Music Composition - University of California, Davis | 2007 - 2012
